The Orange Sewerage Committee will do well to give immediate attention to the claim of Bloomfield in the matter of the condition of Montgomery Street. Bloomfield has all along treated the city of Orange fairly, and has paid its share of the outlet sewer without grumbling, and the least that can be done is to see that the streets are restored to their proper condition with no loss of time. A Mistake.

That a regular report from the Committee of Thirty on the question of a water supply was not presented to the public was a serious mistake. The members of that committee who failed to attend the meetings of that body are in fault in the matter and are in a degree responsible for the tumult that now prevails. It may be that the meetings of the Committee of Thirty were wearisome to some of the members. That is no excuse—they had it in their own power to terminate the agony. The investigation of the water question by the Committee of Thirty did not go materially any farther than that of the Committee of Ten. On the question of water, the committee practically did nothing; their work was nearly all done by the Committee of Ten before the Committee of Thirty was appointed. It was evident from the start that their was a wide divis ion of opinion in the committee over the water question. The majority report would have been, undoubtedly, against municipal ownership, and could have been presented six months

ago. It ought to have been presented. The municipalists would, of course, have presented a minority report. The issue would have clearly laid before the public. As it it now the issue is befogged, and while the vote on Tuesday night was against municipal ownership it could not be said to be in favor of a renewal of the contract with the Orange Water Company. The stay-at-homes of the Committee of Thirty are responsible for the muddy water that the township has got into.

A Mysterious Case.

While Officers Foster and Collins were on duty Thursday night their attention was attracted by shouts for help coming from the direction of the Park. It was about four o'clock in the morning. They hurried to the scene and found a man lying in a buggy in front of the Park M. E. Church. He was suffering from some ugly cuts about the head. They brought the man down to the Essex Hotel and aroused the proprietor and got him taken in. Dr. White was summoned and dressed the man's injuries. The man's name is John Fox, a Singac saloonkeeper. He said he had been to Orange and on his way home was assaulted by three men opposite the sand-pit on Ridgewood Avenue. His assailants struck him on the head with a club. He could not give a very accurate account of the affair.

Mr. Peloubet's Plan.

In another part of this paper will be found a communication from Joseph A. Peloubet in which he offers what he terms "a solution of the question of water and light in this town." Mr. Peloubet has expounded his plan to a number of citizens and they unite in the opindetermined on municipal ownership of water and light plants the people should own the stock or bonds by which money is raised to pay for the plants. Munici palism pure and simple should be practiced. If private corporations are to be sat down on as something to be dreaded it would be well to start with the money lending corporations. Let water and light be furnished by the people to the people. That seems to be the essential feature of Mr. Peloubet's plan.
